

## Greens Update – 25<sup>th</sup> April 2025

This week, our primary focus has been preparing the course for our Gents Open on Sunday. The tees and fairways have been attended to three times over this week, ensuring sharp and well-defined contours. The greens have also received three rounds of cutting, including one hand cut for precision.

Despite the persistent chill and biting North East wind, we anticipate warmer weather in the coming week. The steps to the 8th medal tee have been completed, making it ready for use. Additionally, the new handrail along the 4th path has been sanded and painted.

We all hope for a beautiful, calm, and sunny day on Sunday, and I extend my best wishes to all the players competing.
